MICROWAVABLES

Made of 100% borosilicate glass, our microwavables range has the unique ability to withstand extreme temperatures, making it safer and stronger than regular glass. Borosilicate glass is the safest and healthiest option as unlike plastic and ordinary glass, it does not leech chemicals into food even after repeated usage. The glass retains its clarity over years of usage, ensuring that your food looks as fabulous as it tastes. Cook, heat, serve, store - do it all with ease in Borosil!

PREPARE / BAKE

SERVE

HEAT

Boil potatoes or cook rice in our extreme heat proof microwavable range. Whisk ingredients directly in the hardy borosilicate bowl with an electronic hand-mixer. Dishes are perfect for baking cakes or even dhoklas and other baked dishes.

The casseroles are perfect for daily serving as they keep the food warm and don't allow anything to fall in, so that you can lay the table at your convenience.

Use casseroles to reheat food - the lid keeps gravy from splashing in the microwave.

SERVE FRESH

Designed keeping in mind our Indian food, our beautiful stainless steel casserole range not only looks elegant but is extremely functional. Double walled PUF insulation prevents loss of temperature and retains nutritive value of the food. And the dome shaped lid on the casseroles ensure that the condensed steam trickles down the sides and slides below the coaster, without dropping on the rotis / idlis / theplas, keeping them perfectly fresh.

TOUGHENED
GLASS LIDS

SERVE

Double walled vacuum seal keeps the food fresh and hot and is ideal for serving chappatis, rice, dal and vegetables.

STORE

Store leftovers directly in the fridge as the lid keeps the smell and taste fresh

VISION JARS

There is no jar like a Borosil jar. Our VacuSeal jars ensure that not even the slightest moisture enters, so you never have to bite into another stale wafer or biscuit again. Freezer and flame proof

Vision jars are perfect for freezing chutneys and purees —just hold them on a flame for quick thawing, and their bright stackable lids brighten up your day! And of course, you can use them like any other jar to store all your pulses and grains - the glass ensures your food stays healthy, fresh and safe.

STORE

Store dry fruits, wafers and crispy snacks that get soggy in humid conditions in the vacuum jars, as they keep all traces of moisture out.

FREEZE

Freeze chutneys and purées in these freezer-proof jars, and hold them directly over the flame (yes, they are flame-proof too!) to quickly thaw the contents.

HEAT

These 100% borosilicate jars can be put straight into the microwave or oven to freshen up those dry fruits or wafers.
